

Introducing Prevelle

Introducing PREVELLE®;

Soft. Gentle. Precise.

PREVELLE, a new and exciting hyaluronic acid (HA) gel, is injected just under the skin's surface to temporarily fill wrinkles for a more youthful appearance.

The PREVELLE Difference.

PREVELLE has proven to be effective in smoothing lines and wrinkles with minimal irritation. PREVELLE does not contain animal products and no pre-testing is necessary before use. PREVELLE consists of hyaluronic acid, which is a natural substance already found in your body. In most cases, you can be treated with PREVELLE during your very first visit.
